1910 ATLANTA CITY DIRECTORY.

Which Position are You Fitted to Fill?

Present day business methods have worked the undoing of the untrained man.

But the world offers great prizes to men who evolve, grasp, test, apply and utilize a classified and perfected knowledge of the Science of Salesmanship.

And, the man who neglects to properly apply and to properly classify his acquired knowledge cannot hope to get out of his commercial life all that his natural aptitude entitles him to.

Every man who sells goods has, in addition to the knowledge that he has acquired thru experience, a natural proficiency.

The development of this inherent capability and the establishment within the man of a definite knowledge of his true limitations, is necessary.

The man who hesitates to tackle a big problem, thru fear that he cannot master it does not know his own self and he cannot know his customer.

This knowledge The Sheldon Course brings to you simply by a few hours of studious application for a few months in your spare time.

Forty thousand individuals have taken The Sheldon Course and profited by it. Hundreds of the greatest corporations in America have purchased this course for their sales forces. In every section of the country you will find men who are glad to

testify to the great good this course has done them

In your home section there are, doubtless, many men who will gladly tell you what The Sheldon Course has done for them.

To the eight million men of America who are engaged in the many different branches of selling—or to any man who wants to increase his business capacity—we say 'Let the burden of proving what The Sheldon Course will do for you rest entirely upon us.' We do not ask even a postage stamp. To bring 'The Sheldon Book' and evidence of what the Sheldon Course has done for 1000 others—you need only write us on a postal card.

A Personal Word from A. F. Sheldon

The eighty per cent man—and the sixty per cent man—have tiptoed after the ten per cent man—into the shadows. Progress has taken the place of Patience. All over the world men have joined hands for mutual benefit.

An application of a true science of selling and business building cannot fail to increase the percentage of efficiency in any man.

The progressive way is the Sheldon way—the slow, uncertain way to business betterment is the conventional way.

The mutual betterment movement extends from employer to employer—from employee to employee. Efficiency is the watchword—and more efficiency.

Employers—employees—tradesmen—there is something in the Sheldon Course for you. Are you sufficiently interested in the possibilities involved to send us your name and address?

GREAT PRIZES

FOR TRAINED MEN!

In this directory you will find the names of hundreds of bright, cap-energetic men with the word "clerk" or "bookkeeper" to designate vocation in life.

This designation means—small salaries—hard work—neglected oppor-y.

What the world needs and must have to conduct business is trained men ; men with classified and organized knowledge of business.

This classified and organized knowledge has been perfected in The Sheldon School

And as a result of such knowledge a science of Salesmanship (which includes all business life since business is salesmanship) has been developed that is just as certain and definite as any known science on earth

Any moderately intelligent man can take The Sheldon Course and develop his earning capacity many times over.

Forty-four thousand men have already proven these statements to be facts.

Right here in Atlanta, there are men who admit that they owe their business advancement to the knowledge they gained from The Sheldon Course.

If you seek the opportunity of improving your financial condition, thru ability to command greater wages for your work, write to The Sheldon School for ABSOLUTE PROOF of the efficiency of their course in Salesmanship and Business Building. A postage stamp will be the means of putting you on the road to greater earnings—a better existence. Address today.
